## NECESSARY TO REBUILD.

Valuable Grant of Land to Reid Brothers Will Be Forfeited if Their Plant Is Not Operated.

The rumors that Reid Brothers' Packing Company intends to rebuild the packing plant that was destroyed by fire some months since are still in circulation and it is generally believed that the structure is to be replaced in the spring. The latest rumor is that W. J. Reid, who went to Hamburg, as the representative of the Kingan Packing Company, had interested foreign capital so that he would return and reopen the business and that the Kingan interests would not be represented in the composition of the company.

There is also a rumor that is vouched for by those who are in a position to know, that the site is to be used for a new house and that operations are certain to be resumed, with W. J. Reid as manager, it is stated that the Reid Company was given the site for the house in Armourdale by the Stock Yards Company in a contract that bound it to operate a packing plant their for ten years and that time has not been used by the company. The house must be in operation at the end of the ten years limit or the property will revert to the Stock Yards Company, in accordance with the contract. There was more than two years left of the time when the fire that burnel most of the plant occurred, and as several months has since clapsed it is evident that the company must expedit matters if it desires to save the land grant which is now very valuable, as it is considered one of the best sites in the city and is surrounded by land that can be secured for extensions when needed.
